VICTORY MERCHANT SERVICES

PHILIPPINES | PARTNER PROGRAM

Build a recurring-income agency serving US and Canadian businesses.

We bring the clients, processors and training. You bring the talent.

Who we are

Victory Merchant Services (VMS) is an authorized Square and Shopify reseller, also partnered with Fiserv and TSYS, with teams across the United States and Canada. VMS was founded on one rule from our founder's father, a pastor and missionary: *your word is your bond*. We only work with processors that commit in writing not to change or raise merchant rates.

The opportunity

US and Canadian small businesses need better payment systems and better websites. As a VMS Philippines partner, your team handles four jobs:

1. **Contact** - reach out to North American businesses with our scripts and lead lists.
2. **Propose and sell** - present Square or Shopify solutions, with our sales sheets and support.
3. **Build** - design and launch their websites and Shopify stores.
4. **Support** - keep every client happy after launch, so they stay and grow.

How you earn

Partners earn **recurring residual income** on the merchants they bring to VMS: you are paid month after month while those merchants keep processing, not once per project. Your share is tailored to the value you bring (sourcing, selling, building, supporting) and is set in a written partner agreement.

Deal bonuses on top: depending on the type of business you sign, earn up to **10,000 pesos per deal**. And your agency sets and **keeps 100% of its own website and store build fees**.

What we provide

- Sales training adapted from our Start Up Course
- Scripts, sales sheets and proposal templates
- Access to Square, Shopify and our processor relationships
- Brand standards and approval on proposals, so every client gets the Victory standard
- A written agreement before any work begins

Who it fits

Web and Shopify studios, digital marketing agencies, and sales-minded teams in Baguio that already speak to US and Canadian clients. Start with a 30-minute intro call.
